Opinion on the Essential Requirements:

The basis of this Expertise is the Technical Construction File (TCF). If the TCF includes test reports issued by laboratories accredited to the standard ISO/IEC 17025, the test results of these reports are considered as a basis for the conformity assessment of the Notified Body.

Article 3.1a): Health and Safety:

- Conform.

Article 3.1b): Electromagnetic Compatibility:

- Conform.

Article 3.2: Effective Use of the Radio Spectrum:

- Conform.

General Remarks:

- This conformity assessment is limited to the essential requirements of the R&TTE Directive. Only products fulfilling all essential requirements of all applicable new approach directives may be placed on the market and put into service.
  Products in compliance with all provisions of the applicable directives providing for the CE marking must bear this marking.

- Before putting a product on the market which uses non harmonised frequencies (Class 2) the national authorities of the member states have to be notified.

- The user shall be informed by the person placing the product onto the market if an individual confirmation by network operators may be required for using in EC member states.
